Making your life easier

The internet is becoming the main way of carrying out so many everyday activities. It's a new way of life and it's vital that no resident is left behind by changes in technology.

The internet should make everybody's lives easier but sometimes it may not seem that way as we all have to learn new skills. Southwark want to make support for everyone, freely available through community action.

NEW SKILLS

COMMUNITY

Our digital champions are volunteers who live and work in the borough. They are local people who want to help make sure that no resident is left offline. From installing a SIM card to downloading an app, they can help!

Did you know that you can also get help using the internet in your local library? Southwark offers free use of computers, tablets as well as support with learning. You can even borrow an internet router.
